

Houston Bite of Science

UT Health Science Center at Houston
February 25, 2015

Resources provided by Dr. Ian Fialho and Bryan Murphy from The Boeing Company

- 1) The Boeing You Tube Channel : Has all the videos presented plus other interesting videos about Boeing commercial and military products
<https://www.youtube.com/channel/UC9IEkpr46ScglWU79HF5qQ>
- 2) Great resource for space-related stuff. Look especially at the Why Space -> Space in your life, to learn about how innovations developed on space programs translate to our everyday lives
<http://www.beyondearth.com>
- 3) Another great Boeing website about our space programs : ISS, CST-100 and SLS
<http://www.buildsomethingbetter.com/#!/space>
- 4) A link to the You Tube video about the International Space Station Treadmill Vibration Isolation System (T2-VIS) that Ian and Bryan helped design, develop and test on-orbit
<https://www.youtube.com/watch?v= ikouWcXhd0>
- 5) A link to the paper-plate speaker that some of the teachers were interested in
<http://www.instructables.com/id/Styrofoam-Plate-Speaker>
- 6) The full wind turbine curriculum will be on the Teaching Channel website sometime this summer
<https://www.teachingchannel.org>
