

Dear Friends,

Over the past seven years, Giving Tuesday has grown to become a global day of giving fueled by social and popular media.

The concept is simple: give to a charity that is meaningful to you, and share your story.

As a supporter of the Center for Excellence in Education (CEE), you know that the Center has impacted hundreds of thousands of lives in its 36-year history. CEE's programs for students and teachers enrich STEM education by:

- \* Encouraging leadership and innovation among top STEM students,
- \* Enhancing STEM teacher professional development, and
- \* Expanding the pipeline of underserved urban and rural students pursuing STEM careers.

Please take a moment today 12.3.19 on #GivingTuesday to continue the Center's vital STEM education mission by making [your tax deductible gift](#), sharing your story on social media, liking CEE's [LinkedIn](#), [Facebook](#) and [Twitter](#) pages, and encouraging your family and friends to discover and support the special work of the [Center for Excellence in Education](#).

*Your CEE Alumni Annual Fund Family*
